

# 'The WRAP' by Safe Restraints Inc. Instructor Course

**What:** Instructor course on The WRAP Safety Restraint System hosted by the Terry County Sheriff's Office.

***\*\*RSVP early as classes fill quickly\*\****

**Where:** American Legion Hall  
800 Seagraves Road  
Brownfield, TX 79316

**When:** August 14th 0900-1100 Hours  
August 14<sup>th</sup> 1300-1500 Hours

**Who:** Command Staff & DT Training Staff.

**Cost:** **\$0.** This instructor course and facility is hosted and sponsored through Terry County Sheriff's Office

**RSVP:** To RSVP or for details, please contact:  
Jail Administrator Wayne Johnson@ [wjohnson@terrycounty.org](mailto:wjohnson@terrycounty.org)  
Patrick Pethel @ [ppethel@commandsourcing.com](mailto:ppethel@commandsourcing.com)

**Notes:** Certificates of completion are included along with take-away training material. For more information on The WRAP: [www.saferestrains.com](http://www.saferestrains.com)

**Saves Lives • Prevents Injuries • Reduces Liability**

**Safe Restraints, Inc.  
712 Bancroft Rd. Suite 782  
Walnut Creek, CA. 94598**

### **The WRAP Safety Restraint Device:**

1. Stops the fight quickly. comfortably and definitively upon first contact/application. Application time is documented at 2-2.5 minutes. The WRAP was designed to quickly, safely and definitively control highly intoxicated, emotionally disturbed or highly combative individuals in an upright/seated position to avoid positional asphyxiation, injury, death and lawsuits.
2. Control is fast and definitive wherever you engage with a subject and there is NO OPPORTUNITY for the subject to start another fight. The WRAP is a ONE TOUCH AND DONE tool.
3. Because of a fast application with no-pain control along with upright/seated positioning (to avoid positional asphyxiation), the subject can receive medical care much faster. This is a key component to keeping people alive, reducing injury and reducing in-custody deaths and lawsuits for the department.
4. Subject never needs to be removed from The WRAP or transitioned to other restraints. Even if medical care is needed (see image below) the subject can be transported in The WRAP to the hospital and receive medical care while in The WRAP.
5. Easy, safe and secure transport (Patrol Car or EMS Van) with no chance to start another fight.
6. In our 20-year history, we have not had a DOCUMENTED death or injury caused by The WRAP. We have not been named in a lawsuit nor have we paid a settlement dollar.

All of these benefits result in the safer execution of duties for LE personnel, safer for individuals we come into contact with and lower liability risk for departments. With just one injury, death, lawsuit, public perception issues saved by The WRAP, the equipment pays for itself MANY MANY times over.

## Public Perception Benefits:

Images like this where LE Personnel are doing nothing wrong are yet still unjustly criticized are becoming harder to defend and explain.

**This is what The WRAP looks like:** Humane, benign and absent of escalating force. This image is much easier to defend.

## WRAP USER Fast Facts:

1. Used by over 800 departments across the US with over 8000 units in the field.
2. Used by 40+ Departments in Texas with another 35 in process of adoption.
3. The WRAP is used in Police Departments, County Jails, State and Federal Prisons, Juvenile Facilities, Transportation Enforcement, School District/College Police and Federal Agencies.
4. High profile customers such as:
  - a. Los Angeles County Sheriff
  - b. Los Angeles PD (In Testing)
  - c. New York PD (In Testing)
  - d. Dallas County Sheriff (In Testing)
  - e. ICE/Homeland Security
  - f. San Diego County Sheriff
  - g. San Diego Police Dept.
  - h. Denton County Sheriff
  - i. Washington State DOC
  - j. Georgia DOC
  - k. Hawaii DOC

## **Test & Evaluation, Training and Support**

As we are a Law Enforcement owned company we want to make sure our support allows you to vet out The WRAP at no risk.

1. We come to your facility and provide face to face instructor training (train the trainer) for your personnel so they are fully prepared to use and train on The WRAP. This is provided as a professional courtesy/NO CHARGE.
  2. We provide 'Loaner'/test & evaluation units for you to put into the field and see first hand the success of the equipment. Your front-line officers will tell you everything you need to know about the value of The WRAP and how it performs. This is also provided as a professional courtesy/no charge.
  3. We provide sample policies to help you formulate you own policy.
  4. We provide a complete list of ALL our customers and specific contacts that you can reach out to for an independent opinion of The WRAP. Because it works so well, our users are ALWAYS open to share the success of The WRAP with other departments.
  5. If needed, we provide testimonial support on The WRAP. We will testify to the safety track record, safety design and benefits, training support and training material content.
- \*We put you in a "No Lose" situation to fully vet The WRAP and give yourself a chance at finding a safer way to execute the duties of the job. We are at your service.

### **Pricing:**

1. Pricing is determined by volume. Pricing range from \$1400 to \$1200 each.
2. Grants, asset forfeitures/seizures, financing and purchases over many budget cycles are all ways people finance their adoption of the WRAP.

\*With just one death, injury, lawsuit averted, The WRAP will pay for itself MANY times over.

Note: Departments find that the value of The WRAP is the difference. The human capital, financial capital, public perception benefits along with reduced liability exposure as THE compelling motivators to adopt The WRAP. The financial and intangible benefits far outweigh the cost of The WRAP. This is why we provide training, test units and field use before any purchase is discussed so you can see firsthand why so many departments have chosen The WRAP. The WRAP WORKS! We have your back.

There are MANY press releases on The WRAP sent out by departments who use The WRAP. Here are a couple.

### Press Release Summary Video

Fast application Demo Video: <http://www.saferestrains.com/public/avid.html>  
Click the link.

**Versatility:**

**There are alternate hand control positions based on the need of the situation:**

Hands in front of the body allows for more comfortable and versatile hand control depending on the needs of the situation.

**Transport Functionality**

In the rear of a vehicle.

Rear hand control with the transport harness can be used just to transport high-risk individuals. There are multiple versions of this application. It will be reviewed during training.

## Independent Safety Study on The WRAP:

INDEPENDENT SCIENTIFIC STUDY by the IPICD

**“The WRAP restraint was shown to be safe and effective.”**

**“No deaths or further injuries were found after The WRAP was used.”**

John G. Peters, Jr., Ph.D., CLS  
President & Chief Learning Officer  
Institute for the Prevention of In-Custody Deaths

The WRAP has been studied by the Institute for the Prevention of In-Custody Deaths and found to be safe and effective. Below is the executive summary from that study that can be found on their website: [www.ipicd.com](http://www.ipicd.com)

The WRAP Restraint  
System - Executive Su

## Medical Doctor Endorsement of The WRAP:

ANATOMIC PATHOLOGY, NEUROPATHOLOGY AND  
FORENSIC PATHOLOGY.  
REDLANDS, CALIFORNIA  
Tel: (909) 307 0615; Email: The4N6doc@aol.com**

### **THE WRAP RESTRAINT SYSTEM**

The sudden death of an individual during a struggle with law enforcement officers, in addition to being a tragic event, is always controversial, with extensive media coverage and litigation (criminal and/or civil) against the officers and their departments.

In most cases, the cause of death is multifactorial and complex, and there is often disagreement among forensic experts as to the role of such factors as drugs, cardiac and other natural disease and the effects of the struggle, especially the consequences of physical restraint in the prone position.

There is, however, general agreement that the risk of death is increased by prolongation of the struggle and the length of time during which the individual is restrained physical in the prone position.

The WRAP Restraint System has two major advantageous features with regards to the above factors. It can be applied rapidly, usually in less than a minute (thus significantly reducing the length of the struggle) and, once applied, it places the individual in an upright sitting position, removing any possible risk of respiratory impairment associated with the being in the prone position.

Based upon these considerations (as well as the product's documented track record), the WRAP Restraint System can play a major role in significantly reducing the number of cases of in-custody deaths.

*Frank Sheridan MD  
1/26/15*

We were told that The WRAP saved this man's life because instead of an extended fight with escalating force and sever injuries, The WRAP stopped the fight quickly and medical care was able to step in and provide the care this 'excited delirium' person desperately needed. This saved the department significant liability exposure and financial resources as well as kept Officers safer.

## Referrals:

**We have a VERY loyal following and vocal supporters because The WRAP works. Feel free to reach out to any of these individuals.**

### **San Marcos Police Dept., TX**

Bob Klett Patrol Commander

[bklett@sanmarcostx.gov](mailto:bklett@sanmarcostx.gov)

Lee Leonard Admin Commander

[lleonard@sanmarcostx.gov](mailto:lleonard@sanmarcostx.gov)

- User Since 2007. They have 40 + WRAPs

### **Cedar Park Police Dept., TX**

Lt Cathy Bustos

[cathy.bustos@cedarparktexas.gov](mailto:cathy.bustos@cedarparktexas.gov)

Lt Bobby Vernengo

[bobby.vernengo@cedarparktexas.gov](mailto:bobby.vernengo@cedarparktexas.gov)

### **Round Rock Police Dept., TX**

Lynn Carmichael

[lcarmichael@roundrocktexas.gov](mailto:lcarmichael@roundrocktexas.gov)

- Saw The WRAP from San Marcos PD. Now have fully adopted The WRAP.

### **Denton County Sheriff's Office**

Asst. Chief Barry Caver

[barry.caver@dentoncounty.com](mailto:barry.caver@dentoncounty.com)

- They used The WRAP just hours after training and now have fully adopted the equipment.

### **San Diego Police Dept., Ca**

Ken Kries

[knkries@pd.sandiego.gov](mailto:knkries@pd.sandiego.gov)

- They have 100 WRAPs in the field AND their pilot test with The WRAP was for 100 individual applications. They use The WRAP daily.

### **Carlsbad Police Dept. ,Ca**

Lt Pete Pasqual

[pete.pascual@carlsbadca.gov](mailto:pete.pascual@carlsbadca.gov)

- They have adopted The WRAP department wide and continue to purchase more units. Lt Pasqual was very skeptical at first and now he volunteered to speak to any department about The WRAP and its safety/effectiveness success.

### **Oceanside Police Dept. ,Ca**

Lt Matt Cole

[mcole@ci.oceanside.ca.us](mailto:mcole@ci.oceanside.ca.us)

- They have adopted The WRAP department wide and have made several rounds of purchases. They are big supporters and are currently speaking to Los Angeles PD for us as that test kicks off.

### **Chula Vista Police Dept. ,Ca**

Agt. Donte Kendricks

[dkendricks@chulavistapd.org](mailto:dkendricks@chulavistapd.org)

- Sgt Kendrick is my primary point of contact and runs The WRAP program for the department. He shared that after watching body cam footage of The WRAP that their Risk Mgt Dept. increased the WRAP order and paid for 40% of the cost because of the safety benefits and lawsuit risk reduction.
